MEMORANDUM FOR: Office of Congressional Affairs

FROM: Allen R. Elkins
Director of Finance

SUBJECT: Draft Intelligence Community Legislative Program for
First Session of the One-Hundredth Congress
Request for Comments

REFERENCE: A. OCA 86-2198 dtd 27 June 1986, Same Subject
B. ADPP 9-85 dtd 10 Jan 1985, Comments on Draft FY-86
Intelligence Authorization Bill

1. Reference A solicits office review and comment on the initial draft of the Intelligence Community Legislative Program of the One-Hundredth Congress.

2. The legislative proposals contained in reference have been reviewed with interest. With the exception of Proposal 100/1 - 4 (Department of Defense Proprietaries), the Office of Finance has no modifications or suggestions to offer. Reference B which was written in response to the proposal to authorize proprietary activities for DIA in the 1986 Intelligence Authorization Bill stated our concern that implementing legislation include a provision making it mandatory that the Secretary of Defense protect intelligence sources and methods in the manner required by 50 USC 403 (d)(3) and g. This remains a valid concern and should be considered in preparing implementing legislation.

3. The Office of Finance has no new proposals to include in the current legislative program.

MEMORANDUM FOR: (See external distribution)

FROM:

Deputy Director for Legislation
Office of Congressional Affairs

STAT

SUBJECT: Draft Intelligence Community Legislative Program for
First Session of the One-Hundredth Congress
Request for Comments

1. This memorandum initiates the process of formulating the Intelligence Community Legislative Program for the First Session of the One Hundredth Congress (i.e., this year's program) by soliciting your comments for items to be included therein. The program, when finally prepared, will be submitted to the Office of Management and Budget (OMB) by the Director of Central Intelligence.

2. The Gramm-Rudman-Hollings budget law amendments moved up various budgetary milestones. As a result, OMB is calling for receipt of this year's program by September 1st, instead of November 15th as in previous years. Accordingly, we are using a somewhat different process to formulate this year's program. Attached is a copy of a draft program. It includes some new items. It also includes, in the event no positive action occurs this Congress, those items from last year's program and/or the intelligence authorization bills currently before Congress (H.R. 4759 and S. 2477) in which there appears to be a continuing interest. We ask for your comments on these items as well as your suggestions for new proposals.

3. With respect to new proposals, it is not necessary to submit specific statutory language, or to specify a statute to be amended. A description of each problem or goal, accompanied by an explanation of why it is thought that legislation is necessary to solve or achieve it, is sufficient.

4. We ask for your comments by July 11, 1986.
